

PANEL AND TRENCHING ACTIVITIES

All panel work by Southern Electric has been completed. Panel work is when electricians prepare the electrical panel at the homes to receive underground service.

Additionally, trenching crews are 100% complete with all trenching activities.

CABLING, CUT-OVER AND OVERHEAD LINE REMOVAL

After a majority of the trenching operations were completed by the trenching contractor, the cabling portion of the project began. Another contractor will perform the cabling work. Cabling involves technicians placing new utility lines in the new conduits, so that the new lines can be "energized" and brought into service. Once the new system has been energized, the process to "cut-over" customers from overhead to underground services will begin. Once customers have been cut-over, the overhead lines will be removed. We anticipate this process will move very swiftly and it's not nearly as disruptive or distracting as the trenching work, which is why you may not even see us working.

SDG&E is 95% complete with cabling and customer cut-overs activities. They are 65% complete with overhead line removal activities.

Cox Communications is 100% complete with their cabling, cut-over and overhead line removal activities.

AT&T is 100% complete with cabling and cut-overs and 90% complete with overhead line removal activities.

Crew members continue to remove the overhead lines, as pictured above.

STREETLIGHT INSTALLATION

100% of the streetlights have been installed.

CORRECTION NOTICES

All panel work has been completed and inspected in the 4G Project Block. Most of these corrections were minor and were the responsibility of the property owner. Corrections needed to be completed before we could cut customers over to the new underground system.

SAFETY

If you see anyone on your property that is not visibly wearing an identification badge, or if they are in a vehicle that is not marked with a contractor or utility company name, please call the Information Line at (619) 533-3841 or the San Diego Police Department. The construction crew must travel in marked vehicles and have proper identification at all times on the job site.

CONTACT US

In the event that you are not satisfied or pleased with the work that was done on your property or your street, please let us know.

Please do not attempt to make corrections, adjustments or improvements yourself. We promise to work with you on reaching a solution or creating an outcome that both meet your needs and ours in this process. We will not be able to switch your services to the new underground system if any modifications were done to our work. If you are unsure about the status of the work that has taken place on your property or your street, contact us at:

- Information Line (619) 533-3841
- Email undergrounding@sandiego.gov

UTILITIES UNDERGROUNDING PROGRAM VIDEO

A video about the Utilities Undergrounding Program can be seen by visiting our web site at www.sandiego.gov/undergrounding and clicking on video. By watching it, you can see all the processes associated with our work and gain a better understanding of what is involved in completing those processes.

We thank you in advance for your patience and support while we complete the Utilities Undergrounding Program project in the Lincoln Park community.
